New Crest Toothpaste Helps Improve Gum Health

After years of research by Crest scientists, the brand has introduced a new toothpaste that helps improve gum health. The new Crest Gum Detency Deep Clean Toothpaste, has an activated foam formula that penetrates hard to reach places to remove harmful plaque bacteria for clinically proven healthier gums.

Slim Jim Steps Into Premium Smoked Sticks

Last fall, Conagra introduced their new Slim Jim Premium Smoked Sticks which feature premium cuts of 100 percent grass-fed beef or 100 percent premium pork. Slim Jim is one of many established brands that are being reworked to offer products that address consumers' diverse incomes and preferences. According to data from Nielsen, the meat snack sticks market is a \$1.37 billion business which is why Conagra continues to identify category trends and improve upon them.

In an effort to bring attention to their new product line and stay ahead of the competition, the brand is using this display in supermarkets across the US to promote the 3 Flavors of Premium Smoked Sticks: Memphis Style BBQ, Thai Style Chili and Smokyhouse Original.

The floor display was designed with graphics that provided a formidable visual message. Burnt-looking wood grain used throughout was offset by the bold, red, copy blocks on the rear and side copy panel. The side copy panel did most of the heavy lifting as it was printed with key product attributes.
